Dear Mr. Gotfredson:

Re: Public Records Act Request – 23-668 – Calls for Service

The California Department of Parks and Recreation (“State Parks”) received your Public Records Act (“PRA”) request via e-mail on October 17, 2023. You are requesting “an online log for ranger calls for service in the Anza-Borrego State Park, in particular a calls for service log that would detail fatal incidents in the park over the past few months”.

Pursuant to the California PRA, State Parks is obligated to provide an initial response to such requests within 10 days of its receipt (Government Code section 7922.535.) This response, therefore, is timely.

State Parks is unable to determine if it has records responsive to your request and is requesting clarification. First, please provide a time range for your request. Second, please define what an “an online log for ranger calls for service” is or specify the types of records you are requesting.

Sincerely,

Parveen Kasraee
